

★★ **MADE IN THE USA** ≡

Made in the USA means something. It means select components and pride in workmanship. That's why Clinton Industries is proud to say our E-Series power tables, as well as all our power tables, are **Made in the USA** by a skilled American labor force. They are quality inspected and labeled to meet FDA requirements to insure your tables leave our York, Pennsylvania facilities ready for use in any healthcare environment.

IMPORTANT NOTE TO DISTRIBUTORS DOING BUSINESS IN CALIFORNIA:
Clinton Industries products drop shipping or to our knowledge being reshipped into California will carry appropriate Safe Harbor Warnings in compliance with California Proposition 65.
For more information on California Proposition 65, go to: www.P65Warnings.ca.gov

The E-Series, Power Exam Table

Why the E-series is right for you.

The E-Series makes everything easier. Having the option to raise and lower the table to accommodate patient or clinician is important in providing quality healthcare in today's competitive environment. In fact, The E-Series has a low height of just 18.5" which more than meets ADA (Americans with Disabilities Act) guidelines. Low height enables patients in wheelchairs easier access to and exit from the table's exam surface. Plus, the E-Series raises to a full 35.5" providing the clinician optimum height without the need for repeated bending. Add to that its dependability, smooth operation and comfortable surface and one can easily see why the E-Series is the right exam table for a wide range of practices. But perhaps, the best feature is its price, which positions it as one of the most affordable power exam tables in its class.

Some say the "E" stands for "easy", others say, "economy". No matter how you view it, the E-Series is right for just about everyone and every budget.

The E-Series—made in the USA by Clinton Industries.
