

PANEL LEG SERIES TABLES & COUCHES

WHY Panel Leg Tables?

Panel leg tables are not new. In fact, the design has been around for some time. So why buy?

An alternate the traditional wood or metal four or six-leg tables, panel leg designs are time tested for durability, with many variations having been around for decades. Clinton has taken this classic design and utilized modern precision manufacturing techniques to improve quality, simplify assembly and reduce costs.

Modern Manufacturing—CNC technology means consistent quality, whether you're ordering one table or a hundred.

Assembly—Simplifying assembly not only makes it easy for the end-user, but it also allows Clinton to ship the tables flat, reducing damage and controlling shipping costs.

Affordably Priced—Affordability is everyone's favorite. It means sourcing dependable, domestic, readily available raw materials at the best prices, so goods can be built well, and at the same time be practically priced.

Break from tradition with easy-clean, affordably-priced panel Leg Series tables and couches
